

# Easi-Fit Porches & Canopies

**Sustainable range of standardised timber porches & canopies designed to simplify the procurement process and reduce costs.**

Timber porches and canopies bring kerb appeal, character, style, and tangible benefits too such as vital shelter from extreme weather conditions.

A range of sizes & styles available, easy-to-install solution that can save time and resources on-site.

Lead times is typically two weeks from call off. Delivered to site on a just in time basis.

Complete kits including structural and joinery timbers, plywood gallows brackets and porch posts & bases, plus installation instructions.

Manufactured from a range of PEFC certified and sustainably sourced timbers including Redwood, Whitewood Oak, Douglas Fir and Accoya.
